

INCO Living in Crete Hospital Booking System

The updated online hospital booking system is now active for hospitals in the Lassithi area.

Appointments at most clinics can now be made online although there are some which can only be booked by telephone.

The hospital services website is not available in English but there is a new guide available for INCO members in our Living in Crete section ([Available Here](#))

Should you still require assistance with navigating the booking system, feel free to contact us at committe@inconews.com or Tessa, and we'll do our best to help.

You can access the online booking system here: <https://e-apotelesmata.agnhosp.gr>
