

After surgery (or other procedures) and in some other situations, patients in the hospital will require someone to sit with them during the initial two nights afterwards. This role doesn't necessitate a trained nurse; anyone willing can fulfil it. In some situations, you may need a COVID-19 rapid test to enter the ward.

Register as a Sitter

If you're interested in registering as an occasional sitter for individuals who may find themselves hospitalised without adequate support, please reach out to Tessa with your details. No special qualifications are needed, just common sense and compassion! Whilst we hope requests for assistance will be infrequent, it's reassuring to know we have people available when the need arises.

Trained Nurses & Carers

Below is a list of caregivers currently maintained by INCO for informational purposes only.

**INCO Living in Crete
Private Nurses and Carers**

Please note that while INCO shares the following list of caregivers for informational purposes, we do not assume responsibility for any legalities arising from employment. These caregivers are not checked or endorsed by INCO.

The list will be featured in the "Living in Crete" section on our website.

Trained Nurses

Jude Teague: 693 218 0320 – UK trained, semi-retired

Jayne Orencas 694 310 6995 – UK trained
